Set it Straight started out as a side project band along side members of Till Death. Sometime after Till Death won some sort of raffle and were awarded 1,000 pressed cd's they had to call it quits for one reason or another. Set it Straight took over as first priority so "the 1,000 cd's went to use with the making of "My Favorite Words Promoting positivity and a drug/alcohol free lifestyle Set it Straight has toured all over the west coast, a full US tour and hope to tour europe in the near future

From Scenepointblank.com:

"If Live Your Heart and Never Follow" doesn't reach you – musically and/or lyrically – then there is definitely something wrong with you. The music and the message of the album are among the cream of the crop when it comes to today's hardcore scene."
